Summary

Frontend Web Developer with over 3 years of experience in building responsive, interactive, and efficient user interfaces. Proficient in HTML, CSS, JavaScript, and modern frameworks such as React.js and Tailwind CSS. Strong analytical, collaborative, and communication skills to support the success of digital projects. Experienced in team environments.

Skills

- Languages   : HTML, CSS, Javascript
- Libraries & Frameworks   : React.js, jQuery, Redux, Bootstrap, Tailwind, Node.js
- Others   : RESTful API Integration, Responsive Design, User Interface Design

Experience

Frontend Web Developer   Nov 2021 - Mar 2025
PT. Psyche Indonesia – Manado - Sulawesi Utara, Indonesia

- o Developed an admin system with user management features and various structured content modules to meet both internal and external needs.
- o Created an interactive test builder system that enables the creation and distribution of dynamic forms, similar to Google Forms.
- o Redesigned the consultation scheduling system to a web platform as a migration from mobile, focusing on cross-device accessibility and a responsive user interface.
- o Built a WebSocket-based authentication feature (using Stomp.js) that adapts a real-time login flow similar to WhatsApp Web, providing a seamless user experience.
- o Collaborated with the team in developing a data visualization dashboard that displays statistics and key metric summaries in real-time.
- o Contributed to backend development by creating API endpoints using Laravel to support frontend operations.
- o Developed a microservice based on Express.js to dynamically generate chart images, inspired by the architecture of QuickChart.
